

Motion for LLA National Conference – 22 February 2020

York LRC

Conference notes:

The lack of contact, and therefore lack of co-operation and mutual support, between CLPs and Left-leaning groups within them.

Conference believes:

That such contact is essential to building the movement and its campaigning strategies.

Conference proposes:

- To appoint Regional Organisers, following the existing Labour Party Regions.
- That these Organisers will collect and circulate contact details for every affiliated group within their Region.
- That, in consultation with such groups, Organisers will arrange a quarterly Regional Symposium at a suitable venue, such as a university campus.

Proposer: Tony Piper
Seconder: Steve Jack
