

## NEC elections 2020: Where do the left-wing candidates stand politically?

We asked candidates to comment on all the points in our [Action Programme for the Left](#) (our minimum political platform).

All candidates listed here have indicated that they would fight for socialism and campaign to democratise the party.

We have excluded some candidates that gave us no clear/genuine indication that they should be on our ballot as left-wing candidates. Some candidates are included (or excluded) because of the existing slate they are on.
